Your dog will need help learning to slow down on the inside and to speed up on the outside so change your pace accordingly and add halts. Later, with practice, you will maintain the same speed, but your dog will adjust his speed. In class, we will practice weaving around other students and their dogs.

Leave It: Is used when you want your puppy to leave something alone. Walk your puppy by or place something in front of your puppy asking your puppy to LEAVE IT. Do Not punish your puppy but correct by forcing them away from the object. if they show interest in the object remind them they are to LEAVE IT.
